PROFESSIONAL PROFILE

I am a developer who builds things end to end, from a React frontend down to the database queries behind it. I make a point of picking up new tools and practices as I go, and I like digging into a bug until I actually understand what's going on rather than just patching around it.

SKILLS & EXPERTISE

Professional: Debugging / Communication / Time Management / Organizational Skills / Leadership

Technical: HTML, CSS, JavaScript, TypeScript / React / PHP, Laravel / Node.js / MongoDB, MySQL / WordPress / Git, GitHub, GitLab

Languages: English: Proficient

WORK EXPERIENCE

Associate Software Engineer

Sep 2025 – Present

Godaitec Pvt. Ltd.

- Conduct debugging, query optimization, and performance tuning to maintain system stability.
- Improve system efficiency and data handling through caching optimization strategies.
- Manage mid-level database queries using PHP within the system's control panel.
- Support senior developers with UI enhancements and quality assurance testing.

Frontend Development Apprentice

May 2025 – Aug 2025

Godaitec Pvt. Ltd.

- Built interactive layouts and implemented logic for dynamic content rendering using React, Tailwind CSS, and JavaScript.
- Revamped car exporting and logistics shipment systems in React, enhancing responsiveness and overall user experience.
- Collaborated in code reviews, version control practices, and agile sprint cycles.

Software Engineering Intern

Mar 2025 – Apr 2025

Godaitec Pvt. Ltd.

- Developed responsive frontend components using HTML, Bootstrap, and jQuery.
- Built company portfolio and websites on WordPress, ensuring design consistency and smooth functionality.
- Gained practical understanding of frontend architecture and integration workflows.

CERTIFICATIONS

- Certificate of Apprenticeship in Frontend Development
- Certificate of Internship in Software Engineering
- Google Prompting Essentials Certificate
- Foundations of Cybersecurity
- MLSA-UOK Certificate in Chatbot Development

PROJECTS

- Simulation App – React.js
- My Portfolio – MERN Stack
- Personal Flight Agent – Node.js, Dialogflow
- FoodPanda Mobile App Design Clone – Figma
- Select Cipher – React.js, Node.js
- Currency Converter – React.js

EDUCATION

Bachelor's in Computer Science — University of Karachi

2021 – 2025

GPA: 3.28

AI EXPOSURE

Tools utilized to boost coding efficiency and productivity:

GitHub Copilot / Cursor AI / Antigravity / OpenCode / Blackbox / ChatGPT / Claude AI / Gemini / Perplexity / DeepSeek / AI Studio

THINGS I LIKE TO DO

Explore new tools & technologies / Debug tricky problems / Swim / Read / Doodle
